

## BS-40T

The BS-40T is an invisible in-wall or in-ceiling speaker for 100/70 V applications. Thanks to its special driver unit and innovative surface design, the LDA BS-40T can provide outstanding sound quality when placed in the wall or ceiling.

Once installed and painted, the LDA BS-40T fits in the surface flawlessly.

### Features:

- Full integration with walls and ceilings.
- High quality audio for music and voice.
- Low loss transformer for 70/100 V lines.
