

SF-25T

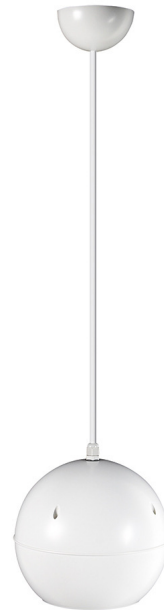

The LDA spherical speaker SF-25T is a 5" full-range model. Acoustically designed to achieve wide coverage distribution and uniform sound.

Its power and excellent performance ensure high sound quality in any direction.

Elegant and robust enclosure made of ABS.

Features of SF-25T:

- High performance: 92db (1W, 1m)
- Excellent quality of voice transmission.
- Low loss transformer for 70/100V lines
- Easy installation
- Metallic grille acoustically transparent

Technical Specifications:

Model	SF-25
Power	20W RMS
Speaker size	5"
Frequency response	150Hz—20 kHz -10dB
Sensitivity	92 dB (1 W, 1 m)
Dispersion	360°/180° (horizontal / vertical)
Colour	White. RAL 9016 (other colours on demand)
Transformer 100V/70V	20/10/5W @ 100V ; 10/5/2,5W @ 70V; Low Impedance: 8 ohm
Connector	4 poles
Bracket	Surface with screw
Dimensions (width x height x depth)	184 x 170mm / cable length 1800mm
Weight	1,08Kg / 1,425Kg.
